

PRODUCT DATA

TYPICAL ANALYSIS:

Protein: 16%

Approximate on a DM basis. Analysis may vary slightly due to grain variances beyond our control.

FEEDING RECOMMENDATIONS:

Calf Pellets are to be fed in conjunction with suitable milk rearing systems.

- Offer Fresh is Best Calf 20 Pellets ad-lib from four days of age to encourage early consumption and stimulate rumen development.
- Calves should always have access to a quality roughage such as straw or stalky hay.
- Once calves are about four weeks of age and have access to quality high protein spring pasture, Fresh is Best Calf 16 Pellets may be used ad-lib instead of Fresh is Best Calf 20 Pellets.
- Gradually wean off milk once calves are regularly consuming 1kg of Fresh is Best Calf 16 Pellets per day and continue to feed Fresh is Best Calf 16 Pellets ad-lib until 100kg target weight is reached.
- From 100-150kg live weight continue to feed Fresh is Best Calf 16 Pellets, to maintain protection from coccidiosis and lessen the likelihood of growth checks in the transition to a pasture-only diet.
- For improved live weight gain and as an aid in the control of coccidiosis, feed 1kg of Fresh is Best Calf Pellets per 90kg calf to provide 90mg/kg live weight lasalocid per day.
- Keep feed fresh and ensure feeding containers are kept clean.
- Ensure that calves have access to fresh, clean water at all times.

INGREDIENTS:

Selected from: Grain and grain by-products, various plant proteins, food by-products, minerals, molasses, vegetable oils, flavorings, milk proteins, vitamins and trace minerals, mold inhibitor, Bovatec® 20CC A009679, live yeast, prebiotics and probiotics.

CONTRAINDICATIONS:

Care must be exercised when feeding concurrently with other antimicrobials. Do not feed with other ionophores e.g. monensin capsules, liquid or premix. Do not exceed recommended dose rates. Not to be used for single dose treatment. Do not allow dogs, horses (or other equids), alpacas (or other camelids) access to feeds containing Bovatec, as ingestion by these species may be fatal.

Bovatec® is registered pursuant to the ACVM Act 1997, Registration Number A009679. See www.foodsafety.govt.nz for registration conditions. Bovatec® is a registered Trademark.

CONDITIONS OF SALE:

Being used outside their control, this product is sold on the express condition that the producers have no warranty, expressed or implied and are not responsible for damage arising out of its use, whether in accordance with its directions or not.
